DETAILED ACTION

Terminal Disclaimer

1. The terminal disclaimer does not comply with 37 CFR 1.321(b) and/or (c) because:

The disclaimer fee of \$110 in accordance with 37 CFR 1.20(d) has not been submitted, nor is there any authorization in the application file to charge a specified Deposit Account or credit card. Also, the terminal disclaimer should be sent as a separate paper.

Priority

2. This application lacks the necessary reference to the prior application. A statement reading "This is a continuation-in-part of Application No. 09/659,530, filed September 12, 2000, **now Pat. No. 6,649,202.**" should be entered following the title of the invention or as the first sentence of the specification.

Information Disclosure Statement

3. The IDS of paper no. 2 is objected to since one of the "Other Documents", Bailey's Industrial Oil and Fat Products, does not include a publishing date.

Double Patenting

4. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA

1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

5. Claims 1-12 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 12-15, 20-22, 26-28 of U.S. Patent No. 6,649,202 in view of Miller et al [Pat. No. 5,431,945]. It would have been obvious to one of ordinary skill in the art to include the fat types of Miller et al since these types of fats were commonly used in solidified form.

Claim Rejections - 35 USC § 102

6. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

7. Claim 7 is rejected under 35 U.S.C. 102(b) as being rejected by Miller et al [Pat. No. 5,431,945].

Miller et al teach a method of forming fat flakes by selecting a liquid mix comprising fat with a Solids Fat Index below the Agglomeration Boundary (column 6, lines 15-20 & 33-37), as defined by applicant on page 8, lines 13-17 of the specification, dispensing a layer of the liquid mix onto a horizontal flat work surface (column 6, lines 52-54), and

adjusting the temperature of the work surface to allow the liquid mixture to solidify
(column 6, lines 55-64).

Response to Arguments

8. Applicant's arguments filed September 10, 2003 have been fully considered but they are not persuasive.

In response to applicant's argument that the references fail to show certain features of applicant's invention, it is noted that the features upon which applicant relies (i.e., dispensing a preexisting solid in claim 7) are not recited in the rejected claim(s). Although the claims are interpreted in light of the specification, limitations from the specification are not read into the claims. See *In re Van Geuns*, 988 F.2d 1181, 26 USPQ2d 1057 (Fed. Cir. 1993).

Conclusion

9. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
